turned from a three months' stay at his cottage on Round Island, St. Lawrence River.

Wm. P. Hillick, optician, Fulton, N. Y., is now located in the Town Hall building, and has three pleasant rooms well adapted to his profession.

E. D. Bradley, formerly located at Susquehanna, Pa., has discontinued his business there and gone on the road for a Buffalo, N. Y., jewelry firm.

John Stoeker, Syracuse, N. Y., has placed in his store five new four level show cases, making a complete transformation in his already very neat establishment.

W. G. Mead, Cortland, N. Y., last week moved into his new store. Since acquiring the property Mr. Mead has expended much money on the building, and an up-to-date jewelry store will be the result.

Otto L. Beck, Peru, Ind., is about to add a double deck show case to his store, to be filled with jewelry and sterling silver novelties. He also will have a fine display window erected to show his goods to the public more completely than they have hitherto been shown.

Patrick H. McGlade, Scottsburg, Ind., owns a one-day clock made nearly 200 years ago in Germany. The clock was brought to this country in the early part of the century, and purchased by the present owner for a pint bottle of whiskey. It is hand-carved and keeps very good time. It is wound up by pulling a six foot chain attached to a single weight over a groove in a pulley. Owing to this peculiar winding arrangement the clock must be suspended some eight feet from the floor. The original weight, filled with sand, is still in use.

The local jewelers are getting back from market. H. C. Abbott, of H. C. Abbott & Bro., who came back a few days since, says he bought the biggest stock in the history of his business. He thinks the outlook for business is bright and shows his confidence by laying in goods to meet all possible demands.

THE CIRCULAR has received from the Carborundum Co., Niagara Falls, N. Y., a carefully compiled, well printed and handsomely illustrated brochure, entitled "Carborundum." This work, which is really an illustrated catalogue, contains a well written article on the manufacture and development of carborundum, a list of the company's products and a complete illustrated price list. Jewelers who are using or intend to use carborundum will find the catalogue valuable.

PUBLIC OPINION MAKES REPUTATION!

Boston Daily Globe, New England's greatest newspaper:

E. J. Gregory has made an honorable reputation as an auctioneer; his services will be best appreciated after he has been tried.

Springfield Republican, June 8, 1898, calls E. J. Gregory the Jewelry Auctioneer of Boston.

Springfield Union, June 8, 1898, says:

E. J. Gregory, Auctioneer, is a guaranty that a sale will be conducted honorably and upon the lines laid down.

Springfield Daily News, June 18, 1898:

E. J. Gregory, of Boston, Jewelers' Auctioneer, makes a specialty of this line of work. He has achieved wide favor in the trade, his methods are quiet and straightforward and his customers soon learn to have confidence in his statements.

Springfield Tribune, June 25, 1898.

E. J. Gregory, of Boston, Jewelry Auctioneer, has shown how a first-class stock should be handled at auction. People have become weary of the usual circus "barker" methods that are customary with such sales, and Mr. Gregory's unexaggerated statements and conservative methods win confidence.

Woburn Journal, Woburn, Mass.

E. J. Gregory made a great success of selling Fogg's jewelry at auction. Jewelry is one of Auctioneer Gregory's strongest holds, having been engaged in it for years, and nobody can beat him at it. He is trustworthy, energetic and fair to deal with; he is one of the most successful auctioneers in the State.
