

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. SPECIMENS OF ELECTROTYPES

COMPRISING
CUTS, BORDERS, INITIALS, ORNAMENTS, ETC.

A. ZEESE & CO.,

Electrotypers, Map, Relief-Line ^{AND} Photo-Process Engravers,

Nos. 341-351 DEARBORN STREET, (FRANKLIN BUILDING.)

CHICAGO.

10

1891.

TO OUR FRIENDS,
THE PRINTING FRATERNITY,
GREETING: —

RINDLY accept, with our compliments, a copy of the latest edition of our specimen book of Stock Electrotypes. We ask for it your careful examination, the result of which, we feel assured, will obtain for it a prominent place among your collection of typographical specimens.

In its production our aim has been to gather into one compact volume the most desirable designs from former issues, together with a vast array of new and original ideas, which have developed in the successive issues of our publication, THE ELECTROTYPE JOURNAL, since the printing of our last catalogue in 1885.

Neither labor nor expense has been spared to make this book a valuable one to all who use stock cuts, and well worthy of careful preservation, and we therefore feel justified in saying to our friends: Do not, under any circumstances, mutilate this specimen book. Every cut being numbered, it is only necessary when ordering to give the number to insure a correct filling of your order.

In perusing the subjoined pages, the attention of the artist-printer will undoubtedly be attracted by the beautiful trade headings on pages 1 to 7, inclusive, which have been engraved in perfect lithographic style by our new Lithogravure process. It affords us especial pleasure in this connection to add that these artistic headings are, from beginning to end, the product of our own establishment, and we take this opportunity to state that we are prepared to furnish special designs of the same character to order on short notice.

To parties who have no open account with us we wish to say, that a great deal of unnecessary and vexatious delay in filling their orders will be avoided by enclosing with same bank draft or money order for amount of their purchases. Small packages can be sent safely and cheaply through the mail, if registered, but a proper allowance should be made for postage (one cent per ounce), besides ten cents for registering.

Tendering our grateful acknowledgments to all our patrons and friends, for the liberal encouragement so kindly extended to us in the past, we solicit a continuance of their favors, with the assurance that we shall always strive to maintain in the future the reputation our house has gained in the past for the superior quality of its productions.

FIRST MEMORY.

CHILDHOOD has its secrets and its mysteries: but who can tell, who can explain them! We have all roamed through this silent wonder-wood—we have all once opened our eyes in blissful astonishment, as the beautiful reality of life overflowed our souls. We knew not where, or who, we were—the whole world was ours and we were the whole world's. That was an infinite life—without beginning and without end, without rest and without pain. In the heart, it was as clear as the spring heavens, fresh as the violet's perfume—hushed and holy as a Sabbath morning.

What disturbs this God's-peace of the child? How can this unconscious and innocent existence ever cease?
