18 POINT ROMAN NO. 4

SMALLEST FONT 25 LBS.

THE INVENTION OF PRINTING has always been recognized by educated men as a subject of importance: there is no mechanical art, nor are there any of the fine arts, about whose early history so many books have been written. The subject is as mysterious as it is inviting. There is an unusual degree of obscurity about the origin of the first printed books and the lives and works of early printers. There are records and traditions which cannot be rec-
